ABOUT ME

Passionate and proficient programmer and game developer with nearly a decade of experience with Unity3D and C#. I have published 2 games, "Midnight Drive" and "Demon Shuriken Master". Currently developing a 2.5D platform fighting game and documenting the process on my YouTube channel. I was a programmer at Deloitte tasked with delivering technological solutions to their clients. I have Strong problem-solving abilities, collaboration skills, and a commitment to continuous learning and innovation.

DIGITAL SKILLS

Power Platform

PowerApps | Power Automate | Dataverse

Microsoft Office

Microsoft Word | Microsoft Excel | Microsoft PowerPoint

Game Development

Game Design | Unity3D | 3D Animation | 3D Modelling

Programming

C# | Java | SQL

Web Development

HTML | CSS | JavaScript | React

Video Editing

Sony Vegas | DaVinci Resolve

Image Editing

Photoshop

PROJECTS

Midnight Drive

Retrowave Music Racing Game: This project, spanning three months, was successfully published on the Google Play Store. Its primary objective was to immerse me in the comprehensive development process of a complete game, from initial concept to final release. Throughout this period, I gained valuable insights into game design, programming, testing, and deployment, significantly enhancing my technical skills and understanding of game development.

Demon Shuriken Master

Top-Down Ninja Shooting Game: This was a significant project that took six months to complete and was published on the Google Play Store. It placed a greater emphasis on game design, allowing me to refine my skills in creating engaging and dynamic gameplay. The project provided valuable experience in both the technical and creative aspects of game development.

WORK EXPERIENCE

01/01/2024 – 12/07/2024
PROGRAMMER DELOITTE

- Actively participated in a variety of projects aimed at developing and delivering cutting-edge technological solutions for clients.
- Leveraged skills to meet diverse client needs and drive successful outcomes.
- Involved in collaborative teamwork, strategic planning, and implementation of technological solutions to optimize efficiency and enhance user experience.
- Worked remotely on a project in the Portugal office, maintaining PowerApps, Power Automate flows, and ensuring database corrections when needed.
- Assisted in creating project documentation for the Portugal project during it's hypercare phase.
- Engaged in an internal project to learn more about AI Builder, using models for word extraction and comparison, integrating them into PowerApps and Power Automate flows.
- Earned the PL-200: Microsoft Power Platform Functional Consultant Associate certification.
- Demonstrated initiative, technical skill, and a rapid learning ability, significantly contributing to project's success.

01/03/2023 – 22/12/2023
CONSULTANT INTERN DELOITTE

- Completed an internship at Deloitte in the Consulting division, focusing on acquiring expertise in Power Platform tools such as PowerApps, Power Automate, and Dataverse.
- Demonstrated quick adaptation to these tools, completing the training program in record time and applying knowledge to internal and client projects.
- Contributed to the proposal of a business process management tool for an energy company, configuring Jira and BonitaSoft according to project requirements.
- Selected to work remotely on a project in the Portugal office, creating PowerApps, Power Automate flows, and Dataverse databases.
- Assisted in creating user stories during the planning stage of the remote project in Portugal.
- Gained hands-on experience in web development projects, from design and implementation to optimization, ensuring seamless user experiences and robust functionality.
- Earned the PL-900: Microsoft Power Platform Fundamentals certification.
- Demonstrated initiative, technical skill, and a rapid learning ability, making significant contributions to the team and project success.

RECOMMENDATIONS

Mário Fernandes Consulting Partner

To whom it may concern,

I am pleased to write this letter of recommendation for Anderson Queiroz, who joined Deloitte Mozambique in March 2023 as an intern in the Consulting area.

From the beginning, Anderson demonstrated a quick adaptation to Power Platform tools, completing our training program in record time and applying his knowledge in internal and client PowerApps projects.

Anderson contributed to the proposal of a business process management tool for an energy company, configuring the Jira and BonitaSoft tools according to the project requirements, showing his ability to quickly learn new tools.

He was selected to work remotely on a project at our office in Portugal, creating and maintaining PowerApps, Power Automate flows, and Dataverse databases. Additionally, he helped in creating user stories and project documentation.

Anderson was involved in an internal project to learn more about AI Builder, using models for word extraction and comparison, integrating them into PowerApps and Power Automate flows.

During his time at Deloitte, Anderson obtained two Power Platform certifications:
- PL-900: Microsoft Power Platform Fundamentals
- PL-200: Microsoft Power Platform Functional Consultant Associate

Anderson demonstrated initiative, technical skill, and a rapid learning ability, making him a valuable member of our team. I am confident that he will bring the same dedication and competence to his future projects.
